Movie Box Office Gross Prediction:

Flask Website Screenshots:

The screenshot shows a web browser window with the title "Movie Box Office Gross Prediction". The URL bar shows "127.0.0.1:5000". The page has a light blue background with a central pink box containing the input form. The form consists of the following fields:

- Enter the movie's budget
- Select the movie's genre
- Does the movie have a homepage
- Select the language used in the movie
- Enter the movie's popularity
- Enter the movie's runtime
- Current movie status
- Enter the average votes received by the movie
- Enter the count of people who voted for the movie
- Select the day on which the movie was released

The browser's taskbar at the bottom shows the search bar, task icons, and system tray with a temperature of 30°C and the date 30-06-2023.

The screenshot shows the same web browser window, but the input form is now the output form. The fields are:

- Select the movie's genre
- Does the movie have a homepage
- Select the language used in the movie
- Enter the movie's popularity
- Enter the movie's runtime
- Current movie status
- Enter the average votes received by the movie
- Enter the count of people who voted for the movie
- Select the day on which the movie was released
- Select the month in which the movie was released
- Enter the year in which the movie was released

At the bottom of the pink box is a button labeled "Predict Movie's Revenue". The browser's taskbar at the bottom is identical to the first screenshot.
